RE: European Application 78-30-0040.9, R&G 21469 PM764
Entitled: 2-Methyl Nicotine and Method of Making

Dear Mr. Bass:

Thank you for your letter dated 21 January regarding your response to the EPO with respect to the above-named application. I concur with your changes and particularly with the insertion of the new claim directed to a substantially pure 2-methyl nicotine. The response seems to be complete and hopefully the Examiner will allow the case as it stands now.

Thank you very much for your assistance with this application and I look forward to hearing from you in the near future.

Very truly yours,

Susan A. Hutcheson
